

375KVA Generator

Manufacturer – Kholer Power Systems

Model – KV375C2

Specifications

Dimensions: 4470L x 2510H x 1340W + (250L for Externally fitted fire Extinguisher)

Fuel Tank Capacity: 470L / Diesel

Weight with liquids in radiator and sump: 2780Kg

Power: PRP 375 / Standby 340

Rated Speed: 1500 RPM

Voltage: 415/240

Engine: Volvo / TAD941GE

Direct Injection, Turbo Charged type with after cool, 6 Cylinders

3 Phase

50 Hz

Max Standby power at rated RP [kW] 323

DEC4000 Monitor Screen – ergonomic and user friendly, Shows engine parameters, hours counter, oil pressure, water temperature, Engine Speed, Battery Voltage and Fuel Level
