

AUXILLARY

FIRST AID CAGE

Manufacturer - Reds Global

Model - RGRC1

Designed and manufactured in house. We are very proud of our fleet of fully enclosed First Aid Cages. These cages meet AS1418 and are designed with an outward opening entry point, fully self closing and self locking.

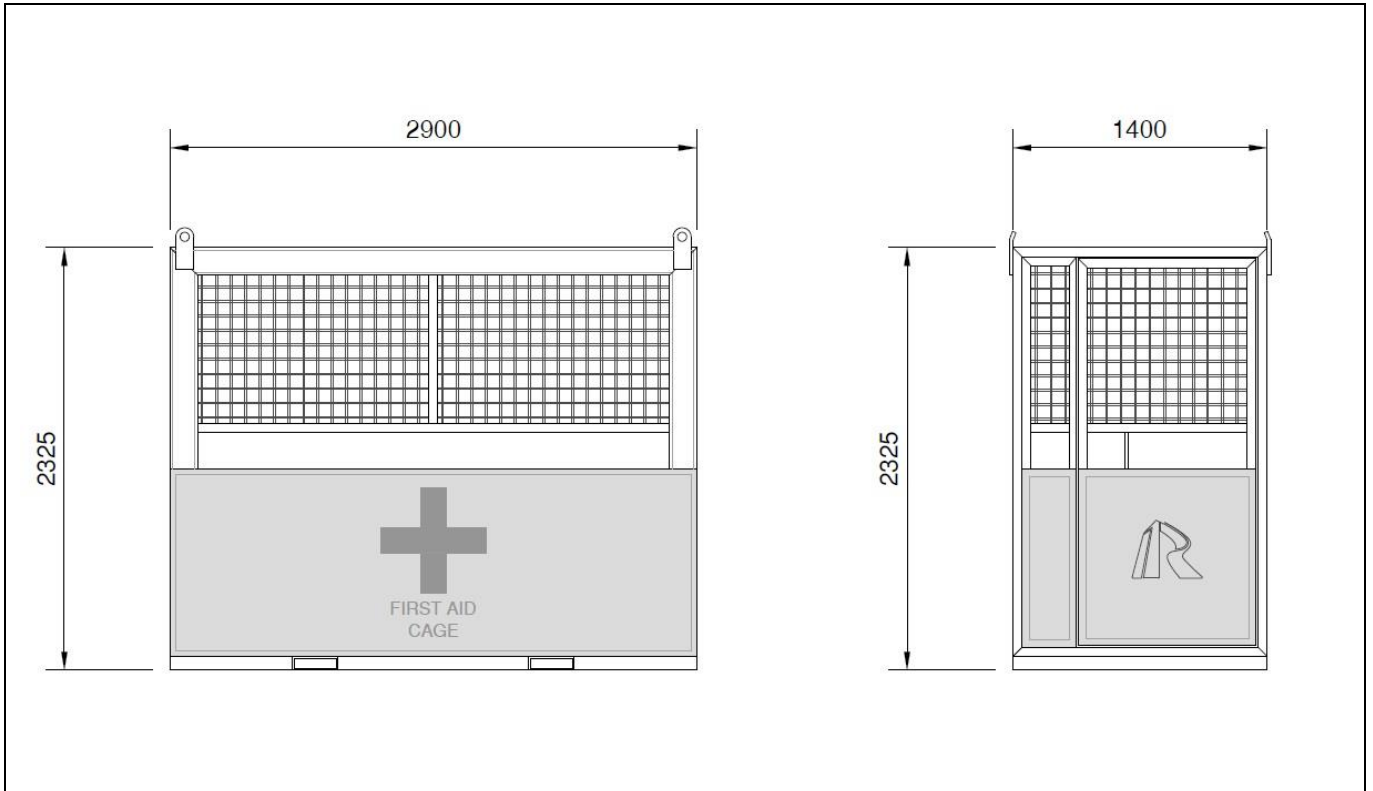

They are also fitted with an oversize bench seat providing added comfort to patients.

The extra detail and long lasting finish to each cage provides an element of trust to your site safety emergency requirements.

Specifications

- Tare Mass 670kg
- SWL 600kg
- Max hoisted Load 1270kg
- 3 Persons plus equipment not exceeding SWL
- Galvanised FSWR assembly supplied with cage
