

AUXILLARY

Offset Lifting Beam up to 7t

Manufacturer - Reds Global

Model up to 7.25t

When the crane is required to operate in tight inaccessible areas or work areas with limited head room, our offset lifting beams offer easier load positioning.

Lifting capacity 7.25t @ 2500mm

Each offset beam is supplied with lifting gear and safety shackles.

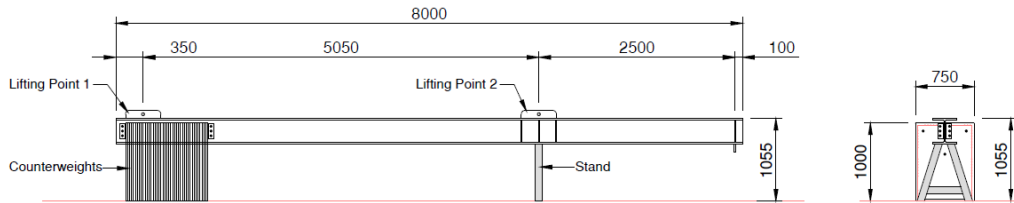

Each offset beam is provided with full handover and SOP.

Specifications

- Varying counterweight configurations
- Easy to use and operate
- Increases cranes minimum radius
- Certified lifting gear supplied
